Synopsis

Thanks for purchasing one of the many themes developed using the Checkmate Vivus API. This file has been documented to the best of our knowledge to simplify the development process. This theme assumes you have basic knowledge in HTML, CSS, Javascript and PHP (at least know the difference between the files mentioned previously e.g html files end with .html).

Get started

To get started simply request your api at
Checkmate Vivus and edit the file `php_include/page/required.php` as seen below.

```
$key = "key";
$username = "username";
```

Personalisation

To personalise the theme edit the file `php_include/page/design.php` and fill in the information you wish to change.

```php
// This was made to simply design processes
// Change this section to make changes to
// basic content such as Heading,
// Image, Social links and Adress

$title1 = "Lorem ipsum <br />Dolor"; // First title
$title2 = "This is the official public page of Lorem ipsum dolor sit amet."; //
Second title
$title3 = "WHAT A YEAR IT'S BEEN!"; // Third title
$title4 = "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vivamus semper
feugiat tristique.
Vivamus tellus augue, convallis."; // Intro text
$imglink1 =
"https://scontent.xx.fbcdn.net/v/t1.0-9/18581928_810485395770978_463836291966931562
1_n.jpg?oh=d1c0f67213b77da84d228148d4ef6326&oe=59DF65DF"; // Introductory image

$email = "example@email.com"; // Email
$address = "University of Surrey"; // Adress
$number = "+447 000 000 000"; // Number
$facebookLink = "https://www.facebook.com/CheckmateConcevoir/"; // Facebook link
$InstagramLink = "https://www.instagram.com/CheckmateConcevoir/"; // Instgram link
$TwitterLink = "https://www.twitter.com/checkmate_co"; // Twitter link
$GitbhubLink = "https://github.com/checkmateconcevoir"; // Github link
```

Contributions

- Checkmate Vivus API
- Bootstrap
- Font Awesome
